Md Asraful Islam

Aspiring Full Stack Developer

Sylhet, Bangladesh | +880 1989 601086 | 6mdasrafulislam@gmail.com

Portfolio | GitHub: Asraful666

PROFILE

Computer Science and Engineering student building responsive web applications with React, Next.js, TypeScript, and Tailwind CSS. Project experience includes API integration, authentication, and application state management. Regularly practices programming problems and is developing backend skills with Node.js, Express.js, and MongoDB.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS

Backend and databases: Node.js, Express.js, MongoDB (currently learning)

Tools and concepts: Git, GitHub, VS Code, Postman, REST APIs, Context API

PROJECTS

BazarDor

Next.js, React, TypeScript, Tailwind CSS, Better Auth, MongoDB

Live demo | Client repository

- Built a Bengali market-price application with category browsing, numerical price sorting, and market comparisons.
- Implemented email/password and Google/GitHub login, protected product and profile pages, and profile name updates.
- Added API provider fallback, skeleton loaders, toast notifications, and responsive layouts.

Dev Stack

React, TypeScript, Vite, Tailwind CSS, React Toastify

Live demo | Client repository

- Built a technology explorer displaying categories, descriptions, difficulty levels, and ratings from JSON data.
- Managed personal stack selections with React state, including duplicate prevention, individual removal, and clearing all selections.

FitLog

Next.js, React, TypeScript, Tailwind CSS, Context API, REST API

Live demo | Client repository

- Developed a workout library with dynamic exercise details and sorting by duration, calories, and rating.
- Implemented planned and saved workouts, completion tracking, removal actions, and toast feedback.

EDUCATION

BSc (Engg.) in CSE | Sylhet International University

September 2024 – September 2028 (expected) | Currently studying

Executive Diploma in Machine Learning | Uniatena

Completed | Machine learning concepts, programming, and intelligent systems applications

ACHIEVEMENTS

- Champion, Intra-University Programming Contest 2025 — Team ByteFlow, Sylhet International University.
- Participant, ICPC Asia Dhaka Regional Contest 2025 — represented Sylhet International University.
